AML – All Applicants

AML Documentation Requirement

AML – Know your customer requirements

Under Irish legislation and supplemental guidance covering AML and the taxation of savings the Fund and the Administrator are required to obtain the documentation verify the identity of all new applicants. This documentation should be provided with the Application Form. The documentation listed may not cover all applications and the Fund and the Administrator reserve the right to request additional documentation if required.

Should documents be provided in a language other than English, an English translation may be required.

In any event, redemption and dividend payments will not be processed until full AML documentation has been received on the account and the Fund and the Administrator reserve the right to take further action where full AML documentation has not been received.

Please note that the Administrator can only accept Application Forms from an entity that has legal capacity to enter into contracts on its own right and may require the constitutive document to legitimate legal status.

The Administrator employs a risk based approach to AML. This entails looking at various risk factors such as geographic risk, customer risk and Politically Exposed Person (PEP) association among other factors. There are 3 different approaches that can be taken as a result of the risk assessment, these are Simplified Customer Due Diligence (SCDD), Standard Customer Due Diligence (SDD) or Enhanced Customer Due Diligence (ECDD).

Simplified Customer Due Diligence (SCDD)

SCDD can be applied in instances where the jurisdiction involved and customer type is deemed lower risk from a Money Laundering and Terrorist Financing perspective. Where SCDD is applied the emphasis is more on independent verification.

Examples of where SCDD can be applied are:

1. A credit or financial institution that carries out business in an EU Member State or in a jurisdiction, which operates comparable AML/counter terrorist financing (CTF), controls
2. A company listed on a regulated market in a prescribed country.

Standard Customer Due Diligence (SDD)

SDD will be applied where the customer/entity investing is located in a jurisdiction deemed to have equivalent levels of AML/CTF controls as Ireland. Additionally the entity type, as a result of our risk assessment, is not deemed to be higher risk, however information on the beneficial owners and controllers is not publicly available and therefore information is required from the Applicant.

* Subject to change in line with Irish regulatory requirements and relevant guidelines.

** Document must have signature, must be in date and have clear photo.

*** Document must be recent (under 6 months old), must match Application Form and must not be a c/o or PO Box Address.

Enhanced Customer Due Diligence (ECDD)

ECDD is applied on a risk sensitive basis in any situation, which by its nature would present a higher risk of money laundering or terrorist financing. Typically ECDD will be applied to applicants located in higher risk jurisdiction, with a complex legal structure or where the registered shareholder or ultimate beneficial owner of the registered shareholder has been identified as a PEP.

Please note the above is a guideline and the Administrator reserves the right to apply ECDD to any Applicant where it deems the situation warrants the approach or may request further information as it deems necessary as part of its AML verification process.

Please see the below table detailing what is typically requested for the most common entity types under standard and enhanced due diligence.
