ABR Dynamic Blend Equity and Volatility Fund

I USD Class (IE00BD454B01)

a Share Class of DMS UCITS Corrib Platform ICAV

The Fund is managed by Waystone Management Company (IE) Limited (formerly named DMS Investment Management Services (Europe) Limited) (the "Manager")

OBJECTIVES AND INVESTMENT POLICY

Investment Objective

The investment objective of the Fund is to achieve investment returns by investing at least 80% of the NAV in futures listed or traded on one or more Recognised Markets that provide exposure to US large cap equity securities including volatility in the US equity markets.

Investment Policy

The Fund's strategy is designed to achieve returns from favourable volatility movements in the U.S. equity markets while maintaining U. S. equity exposure to preserve positive performance during extended periods of rising markets.

The Fund may also invest in cash instruments. Cash instruments include cash deposits and cash equivalents, such as short-term commercial paper, certificates of deposit, treasury bills, floating rate notes and fixed or variable rate commercial paper listed or traded on one or more Recognised Markets.

As many of the investments which the Fund will make will be in futures which are invested in on an unfunded basis, the Fund will only have a requirement to post margin with the brokers through which it makes such investments rather than pay the whole of the notional value of the derivative. As a result, the Fund is expected to retain significant levels of cash, which will be invested in cash instruments.

Benchmark

As a passively managed fund, the ABR Dynamic Blend Equity and Volatility Fund uses Indices to gauge performance and for portfolio comparison purposes. The strategy seeks investment results that correspond generally (before fees, expenses, etc) to the ABR Dynamic Blend Equity and Volatility Index (ABRVXX Index).

The strategy's portfolio is constructed with reference to both the S&P 500 Index (SPXT Index) and the S&P 500 VIX Short-Term Futures Total Return Index (SPVXSTR Index).

Fund Currency

The base currency of the Fund and the reference currency of this class is USD.

Subscription and Redemption

Shares of the Fund can be bought and sold on each Dealing Day which is a Business Day in Dublin and New York, or any other day which the Directors have determined, subject to advance notice to all shareholders in the Fund.

Income

If sufficient net income after expenses is available in the Fund, the Directors may make a single distribution to Shareholders of substantially the whole of the net income of the Fund, as attributable to each class. Dividends, if declared, will normally be declared in May of each year and will be paid within six months of the end of the annual accounting period.

Risk Disclaimer

The shaded area in the table above shows the Fund's ranking based on the synthetic risk and reward indicator (SRRRI). The SRRRI suggests the relationship between risk and potential returns when investing in the Fund.

There is no assurance that the Fund will meet its investment objective and you may lose money. The Fund's performance will be affected by market movements, but the Fund may lose money in a rising market. The Fund is neither capital guaranteed nor protected.

Please note that category 1 does not mean a risk-free investment. Historical data, such as is used in calculating the synthetic indicator, may not be a reliable indication of the future risk profile of the Fund; the category might change in the future.

Why is the fund in the specific category?

The Fund has been classified as category 6 due to the nature of its investments. This means that the purchase of units in the Fund is connected to medium risk of such fluctuations.

Significant risk(s) for the Fund not taken into account in this indicator include the following:

Counterparty risk: The counterparty to a derivative or other contractual agreement or synthetic financial product could become unable to honour its commitments to the Fund, potentially creating a partial or total loss for the Fund.

Currency risk: Changes in exchange rates will affect the returns on your investment.

Derivatives risk: A derivative may not perform as expected and may multiply the gains and losses made by the Fund.

Liquidity risk: In difficult market conditions, the Fund may not be able to sell a security for full value or at all. This could affect performance and could cause the Fund to defer or suspend redemptions of its shares.

Operational risk: Failures at service providers could lead to disruptions of Fund operations or losses.

For more information about the risks of the Fund, please refer to the Risk Considerations section of the Prospectus and Supplement.

CHARGES

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after the investment

Entry charge	0.00%
Exit charge	0.00%

Charges debited to the Fund over a year

Ongoing charge	1.75%
----------------	-------

Charges debited to the Fund under certain specific conditions

Specific Fund Information

This key investor information document describes ABR Dynamic Blend Equity and Volatility Fund, a sub-fund of DMS UCITS Corrib Platform ICAV. The Prospectus and the periodic reports are prepared for the entire ICAV.

The assets and liabilities of each sub-fund of the ICAV are segregated which means that each sub-fund of the ICAV will be treated as a separate entity with, but not limited to, its own contributions, redemptions, capital gains, losses, charges and expenses and, therefore, a shareholder in the Fund is only entitled to the assets and profits of the Fund.

The Fund offers other share classes for the categories of shareholders as defined in the Supplement. Shareholders may transfer shares of one sub-fund or class into shares of another sub-fund or class. For more information, please refer to the Transfer of Shares section of the Prospectus.

The Net Asset Values per share class are available from the Administrator.
