

KraneShares MSCI China ESG Leaders UCITS ETF

30/Jun/2020

Investment Strategy

KESG seeks to track the MSCI China ESG Leaders 10/40 Index. The MSCI China ESG Leaders 10/40 Index aims to provide exposure to companies with high Environmental, Social and Governance (ESG) ratings relative to their sector peers. The MSCI China ESG Leaders 10/40 Index consists of large and mid-cap companies in China. In order to ensure diversification, the Index is designed to limit individual constituent weights to 10% and sector weights to 40% of its composition.

China's ESG Highlights

- China's commitment to stricter environmental mandates and conservation efforts is necessary to achieve national goals of sustained economic growth.
- China now is the world leader in total renewable energy capacity, at approximately 30% of total global capacity¹.
- Greater inclusion of China's capital markets internationally creates more of an incentive to align shareholder rights and governance policies with global standards.

1. REN21's Renewables 2020 Global Status Report (GSR), Chapter 5: Investment Flows.

ESG is an effective filter for selecting companies that best adhere to China's future plans for development.

Environmental

Strong Government Initiatives

The Chinese government has enacted environmental policies and incorporated carbon reduction in national level Five-year Plans.

Proven Ability to Achieve Goals

China has surpassed other leading countries throughout the world in renewable technology.

Social

More Educated Workforce

Economic and technological transformation has created a more educated workforce that requests better working conditions.

High Quality Product Expectations

As disposable income increases, there is greater demand for better product quality.

Governance

Adherence to Global Standards

Greater inclusion of China's capital markets incentivizes Chinese companies to align corporate governance with global standards.

SOE Reform & More Mixed Ownership

Chinese companies are expected to have a more diversified management and shareholder structure in the future.

International investors encourage further growth in China's ESG development

- International investors now have more exposure to China's capital markets as a result of the China A-Share inclusion to MSCI's Global Standard Indexes.
- Domestic and foreign investors are pushing for better ESG practices and policies now that they are more heavily invested in China.

Investing involves risk, including possible loss of principal. There can be no assurance that a Fund will achieve its stated objectives. The Funds are subject to political, social or economic instability within China which may cause decline in value. Fluctuations in currency of foreign countries may have an adverse effect to domestic currency values. Emerging markets involve heightened risk related to the same factors as well as increase volatility and lower trading volume.

Narrowly focused investments typically exhibit higher volatility. Internet companies are subject to rapid changes in technology, worldwide competition, rapid obsolescence of products and services, loss of patent protections, evolving industry standards and frequent new product productions. Such changes may have an adverse impact on performance.
