

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Sarasin IE Multi Asset – Dynamic (GBP)

Class P Accumulating Units (IE00B7WNCB01)

The Fund is managed by Waystone Management Company (IE) Limited

OBJECTIVES AND INVESTMENT POLICY

Investment Objective

We seek to grow the Fund (through increases in investment value and income) over a rolling 5 year period after deducting fees and costs with a lower risk profile than investing solely in company shares.

Investment Policy

The Fund will invest between 40% and 80% of the Fund in the shares of companies from around the world. It will also invest in fixed and floating rate, government and corporate bonds as well as convertible bonds or warrants. Such debt securities will normally have a minimum credit rating of BBB as rated by Standard & Poor's, Moody's or an equivalent credit rating agency.

It will also invest in units in funds (including those managed by Sarasin), cash and it even may hold up to 60% of the Fund in these assets when we deem it appropriate in order to manage difficult market conditions.

We carefully select the Fund's investments and have free choice to select companies from any country/region, sector or industry. We identify the long-term investment themes that drive growth and lead to disruption in global economies and industries, and will shape the world in which we live and invest. We select companies based on our own analysis of which are most likely to benefit from our themes, and are well placed to grow their revenues and cash flows as a result of them.

The Fund may only use derivatives to maintain the Fund's value, manage investment risk and to gain cost-effective access to

investments. Derivatives are financial contracts whose value is linked to the price of another asset (e.g. indices, rates, share prices, currencies).

The Investment Manager will assess securities for environmental, social and governance issues and consider Sustainability Risks to inform the security selection in the Fund.

Benchmark

The Fund is actively managed and will not track an index.

Fund Currency

The base currency of the Fund is GBP

Income

Any income due from your investment is reflected in the value of your units rather than being paid out.

Dealing Frequency

You can buy and sell units in the Fund before 12 noon GMT on any business day in Dublin.

Investment Horizon

This Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

For full investment objectives and policy details please refer to the Prospectus and the Prospectus Supplement.

RISK AND REWARD PROFILE

Risk Disclaimer

The risk and reward indicator illustrates where the Sub-Fund is positioned in terms of its possible risks relative to its potential rewards. The higher the Sub-Fund's position on this scale, the greater the possible reward, but also the greater risk of losing money. Even if the Sub-Fund is in the lowest risk class you can lose money, as no investments are entirely risk free.

This risk indicator is calculated using historical data, which cannot be used as a prediction for the future. Therefore the risk classification may change over time.

Why is the fund in the specific category?

The Fund is ranked at 4 reflecting observed historical returns. The fund is in this category because it has shown moderate levels of volatility historically.

The following risks may not be fully captured by the Indicator:

Credit risk: Investing in bonds offers you the chance to earn returns through growing your capital and generating income. Nevertheless, there is a risk that the organisation which issued the bond will fail, which would result in a loss of income to the Fund, along with its initial investment. Bond values are likely to fall if interest rates rise.

Counterparty and Settlement Risk: The fund may enter into derivative transactions in over-the-counter markets, which will expose the fund to the credit risk of their counterparties. The fund may be exposed to the risk of settlement default where the counterparty may default on its obligations to perform under the relevant contract. In the event of the bankruptcy or insolvency of a counterparty, the fund could experience delays in liquidating the position as well as significant losses, including declines in value during the period in which the fund seeks to enforce its rights.

Derivatives risk: Derivatives can only be used to manage the fund more efficiently in an attempt to reduce the overall risk of its investments, reduce the costs of investing or generate additional capital or income. Although this may not be achieved and may create losses greater than the cost of the derivative.

Emerging Market Risk: Emerging markets may face more political, economic or structural challenges than developed markets and shares may be less liquid, meaning that investments may not be sold quickly enough to prevent or minimize a loss; they may therefore involve a higher risk than investing in developed markets.

Bond Liquidity Risk: In stressed market conditions the value of certain bond investments may be less predictable than normal. In some cases this may make such investments harder to sell at the last quoted market price, or at a price considered to be fair. Such conditions could result in unpredictable changes in the value of your holding.

Further details on risk factors that apply to this Fund are set out in the Risk Factors section of the prospectus.

CHARGES

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after the investment

| | |
|--------------|----------------|
| Entry charge | Not applicable |
| Exit charge | Not applicable |

This is the maximum that may be deducted from the investor's money before it is invested or before the proceeds of the investment are paid out.

Charges debited to the Fund over a year

| | |
|----------------|-------|
| Ongoing charge | 1.00% |
|----------------|-------|

Charges debited to the Fund under certain specific conditions

Performance fee: Not applicable

The entry and exit charges are maximum figures. In certain cases you may pay less - you can find this out from your financial advisor.

The ongoing charges figure is based on expenses for the year ending 31/12/2021. This figure may vary from year to year. It excludes the performance fees and any portfolio transaction costs except entry and exit charge paid by the Sub-fund when buying or selling units in another fund.

For more information about charges, please refer to the relevant sections of the Prospectus and the relevant Supplement available at www.waystone.com.

PAST PERFORMANCE

Past performance is not a guide to future performance, prices may fluctuate and you may not get back your original investment.

The performance figures include all ongoing charges and exclude any entry charges or exit charges.

The Fund was launched on 1 January 1988. The Unit Class was launched on 15 October 2012.

The past performance was calculated in GBP on a net asset value basis with gross dividends reinvested.
