Epoch Global Equity Shareholder Yield Fund (the "Fund")

GLOBAL EQUITY SHAREHOLDER YLD B INSTL EUR (IE00BDF11T45)

a Fund of Epoch Investment Funds plc

This Fund is managed by Waystone Management Company (IE) Limited ("Waystone")

OBJECTIVES AND INVESTMENT POLICY

Investment Objective

The Fund seeks to provide an attractive total return with lower-than-market volatility by investing in global companies with strong free cash flow and which provide income and long-term capital growth. The Fund invests typically in a diversified (90-120 companies) portfolio of global equity securities (e.g. companies' shares).

Investment Policy

The Investment Manager's stock selection process involves a detailed analysis of global equity securities to select companies that generate growing free cash flow and possess management with consistent and successful capital allocation policies with a focus on generating returns for shareholders by paying dividends and through buying back shares or paying down debt without taking undue risks. The Fund can invest in global companies across a range of market capitalisations and sectors including a small amount of investment in emerging markets' companies.

The Fund may hold both USD denominated securities and non-USD denominated securities.

The Fund is considered to be actively managed in reference to MSCI Daily Total Return Net World EUR and Bloomberg Barclays Global-Aggregate Total Return Index Value Unhedged EUR (the "Benchmarks")

by virtue of the fact that it uses the Benchmarks for performance comparison purposes. Certain of the Fund's securities may be components of and may have similar weightings to the Benchmarks. However the Benchmarks are not used to define the portfolio composition of the Fund or as performance targets and the Fund may be wholly invested in securities which are not constituents of the Benchmarks.

Fund Currency

The reference currency of the Sub-Fund is USD.

Income

Any income the Fund generates will not be paid out but will instead be reinvested to grow the value of your investment.

Investment Horizon

Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

RISK AND REWARD PROFILE

This risk indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.

The lowest category does not mean risk free.

The risk and reward category may shift over time and is not guaranteed.

Your investment in the Fund is not guaranteed. The Fund is invested in financial assets and instruments and uses financial techniques that are subject to levels of variation, that may result in gains or losses.

A category 1 fund is not a risk-free investment - the risk of losing your money is small, but the chance of making gains is also limited. With a category 7 fund, the risk of losing your money is high but there is also a chance of making high gains. The seven-category scale is complex, for example, 2 is not twice as risky as 1.

Why is this Fund in this category?

The capital of the Fund is not guaranteed. The Fund is invested in financial markets and uses techniques and instruments which are subject to some levels of variation, which may result in gains or losses.

Are there any other particular Risks?

Investment risk - the Fund invests in securities globally, share prices can rise or fall due to a number of factors affecting global stock markets.

Concentration risk - the Fund's investments are concentrated in the US. This means the Fund may become more susceptible to fluctuations in value resulting from adverse economic or business conditions in the US. The Fund may be subject to a greater degree of risk and volatility than a fund following a more diversified.

Currency risk - the Fund is denominated in US Dollars but may hold assets denominated in other currencies. The value of your shares may rise and fall as a result of exchange rate movements between these currencies.
