Enam India Opportunities Fund (the "Fund")

a Sub-fund of EAMC ICAV

Class B USD (IE000JOF0403)

This Fund is managed by Waystone Management Company (IE) Limited (the "Manager")

Objectives and Investment Policy

Investment Objective

The Fund aims to achieve long term capital appreciation.

Investment Policy

The Fund will aim to achieve this investment objective by primarily investing in listed Indian equity and equity-related instruments (such as preference shares) and ADRs/GDRs which are listed and/or traded on regulated markets in India. The Fund will also invest in IPOs.

The Fund may also invest in equities and equity-related instruments of Indian companies listed and/or traded on regulated markets outside of India.

As a result of corporate actions, the Fund may also hold warrants giving the Fund the right to purchase shares in companies consistent with the investment policy.

The Fund may also invest up to 100% of its net assets in cash, cash equivalents and money market instruments (including, but not limited to cash deposits, commercial paper and certificates of deposit which may or may not be listed or traded on regulated markets) in the appropriate circumstances.

The Fund is actively managed and the Investment Manager has full discretion over the composition of its portfolio, subject to the investment objective and policy. In the case of all accumulating classes, the net income and profits available for distribution will be accumulated and reflected in the net asset value per share which shall rise accordingly.

Benchmark

The MSCI India Index shall be used by the Fund for performance comparison purposes only.

Dealing Frequency

Shares can be bought or sold any day (except Saturday or Sunday) on which banks and stock exchanges in India and Ireland are generally open for business. Orders to buy and sell can be made by submitting a request by 10a.m. (Irish time) on the relevant dealing day to the Administrator, BNP Paribas Fund Administration Services (Ireland) Limited.

Investment Horizon

The Fund is suitable for investors seeking capital growth over a medium to long-term horizon who are prepared to accept a high level of volatility from time to time. Those investors should be willing to assume the risk of short-term share price fluctuations and losses that are typical for a long only equity fund focusing on stocks of issuers based in India. The Fund is not designed for investors needing current income.

For full investment objective and policy details, please refer to the section entitled "Investment Objective and Investment Policy" in the supplement for the Fund (the "Supplement").

Risk and Reward Profile

What does this Fund in this Category?

Risk Disclaimer

As the share class is less than 1 year old, there is insufficient fund history to provide a useful indication of the risk and reward profile for the Fund. The indicator shown above is based on data from a representative model using available data for the last five years. The risk and reward indicator is based on historical data and may not be a reliable indication for the future. The risk and reward category shown is not guaranteed to remain unchanged and may change over time. The lowest category does not mean that a share class is risk free and your initial investment is not guaranteed.

Why is this Sub-Fund in this category?

The Fund is in category 6 because it invests primarily in Indian equity securities and the base currency is USD, whereas the underlying exposure will be primarily in INR.

Are there any other particular Risks?

Market Risk - The Fund can invest in equities which may be affected by market risk (the risk of an investment losing its value due to changes in economic conditions).

Investment in India - The Fund will invest primarily in India. India is an emerging economy and investment carries with it often substantial risks.

Liquidity Risk - The Fund can be invested in financial instruments that may have low levels of liquidity.

Currency Risk - Changes in the exchange rate between the base currency of the Fund and the designated currency of unhedged share classes of the Fund expressed in a currency other than the base currency of the Fund may lead to depreciation in the value of the shares of that share class.

For a complete overview of all risks attached to this Fund, refer to the section entitled "Risk Factors" in the Supplement and the ICAV's prospectus (the "Prospectus")

Charges for this Fund
