PART 4 - COMPLIANCE

Administrative penalties and safeguards for them

Power to penalize

- 23.** (1) Subject to complying with regulations 27 to 30, the Authority may impose a penalty (a “primary penalty”) for offences under Part 3, as follows —
- (a) in the case of —
 - (i) an offence by a body corporate, a primary penalty of fifty thousand dollars; or
 - (ii) an offence by an individual who forms, or forms part of, an unincorporated Cayman Reporting Crypto-Asset Service Provider, a primary penalty of fifty thousand dollars; or
 - (b) in any other case, a primary penalty of twenty thousand dollars.

- (2) Subject to paragraphs (4) and (5), the Authority may impose further penalties on the party of one hundred dollars for each day the contravention continues (each a “continuing penalty”) if —
 - (a) a primary penalty has been imposed and the primary penalty has not been stayed;
 - (b) the contravention has not been remedied; and
 - (c) the party is capable of remedying the contravention.
- (3) For the purposes of paragraph (2)(c), insufficiency of funds or reliance on an agent appointed under regulation 11 or any other person does not, of itself, make the party incapable of remedying the contravention.
- (4) The Authority shall not impose a continuing penalty where a primary penalty in the amount of fifty thousand dollars is imposed under paragraph (1)(a).
- (5) Where the sum of the primary penalty and any continuing penalty imposed is fifty thousand dollars, the Authority shall not impose any additional continuing penalties.
- (6) Where a penalty is not paid within thirty days after it is imposed, the penalty becomes a debt owing by the party to the Crown.

Criteria for deciding penalty

- 24.** (1) In deciding whether to impose a penalty or the amount of the penalty, the Authority shall consider the following criteria in the following order of importance —
- (a) the need to ensure strict compliance with, and to penalize and deter contravention of, these Regulations;

 - (c) the apparent degree of the party’s inadvertence, intent or negligence in committing the contravention;
 - (d) the party’s conduct after becoming aware of the contravention, including —
 - (i) whether and how quickly the party brought the contravention to the Authority’s attention; and
 - (ii) the party’s efforts to remedy the contravention or prevent its recurrence; and
 - (e) the party’s history of compliance with the Crypto-Asset Reporting Framework, in the Islands or elsewhere, of which the Authority is aware.
- (2) The Authority may also consider other matters it reasonably considers are relevant.

- (3) The criteria referred to in paragraph (1) and any matters considered by the Authority to be relevant under paragraph (2) prevail over any issue concerning the party's resources or ability to pay.

Limitation period

- 25.** (1) The Authority shall not impose a primary penalty for an offence under regulation 15 more than one year after becoming aware of the contravention.
- (2) The Authority shall not impose a primary penalty for any other offence under this Part more than —
- (a) one year after becoming aware of the contravention; or
 - (b) six years after the contravention happened,
- whichever is earlier.
- (3) There is no limitation period for imposing a continuing penalty while all the conditions under regulation 23(2) continue to apply.

Imposition of penalty precluded by prosecution for offence

- 26.** A prosecution against a person for an offence, whether or not a conviction resulted, precludes the imposition of a penalty against that person for the same offence, but not *vice versa*.

Procedure for imposing penalty

Steps required to impose penalty

- 27.** (1) Subject to paragraph (2), where the Authority decides to impose a penalty, the Authority shall impose the primary penalty by —
- (a) giving the party a breach notice;
 - (b) if regulation 29 applies, complying with that regulation; and
 - (c) giving the party a penalty notice.
- (2) In the case of a contravention of regulation 9, the Authority may impose a penalty by giving the party a penalty notice, without first having taken the steps under paragraph (1)(a) or (b).
- (3) Where the Authority decides to impose a continuing penalty, the Authority shall impose the continuing penalty by giving the party a penalty notice.
- (4) The same penalty notice may be given for two or more continuing penalties for the same primary penalty.

Breach notice for primary penalty

- 28.** (1) A breach notice shall be dated and state —
- (a) the party's name;

- (b) that the Authority proposes to impose a penalty on the party (the “proposed action”) for the offence it believes the party committed;
 - (c) the facts and circumstances that the Authority believes constituted the offence;
 - (d) the amount of the penalty the Authority proposes (the “proposed amount”); and
 - (e) that the party may, within a period stated in the breach notice after receiving the notice, submit written representations to the Authority about the proposed action, the proposed amount, or both.
- (2) The period stated in the breach notice is not to end less than thirty days after the giving of the notice.

Considering representations and deciding primary penalty

- 29.** (1) This regulation applies only if a breach notice has been given for a penalty, the period stated in the notice has ended and the party has made representations within the period stated in the notice.
- (2) The Authority shall —
- (a) consider all matters raised in the representations concerning the proposed action and the proposed amount referred to in regulation 28(1); and
 - (b) reconsider the proposed action and, if relevant, the proposed amount.
- (3) The reconsideration referred to in paragraph (2) need only be on the balance of probabilities.
- (4) The amount of a penalty imposed may be any amount not exceeding the proposed amount.

Penalty notice for all penalties

- 30.** (1) A penalty notice shall be dated and state —
- (a) the party’s name;
 - (b) that the Authority has imposed a penalty of a stated amount on the party;
 - (c) if the penalty is a primary penalty, reasons for the decision to impose the penalty and for its amount;
 - (d) if the penalty is a continuing penalty, the date of the penalty notice for each relevant primary penalty;
 - (e) that if the penalty is not paid within thirty days after the penalty notice has been given, the penalty becomes a debt owing by the party to the Crown; and
 - (f) the substance of the party’s right to appeal.

- (2) The Authority may share information about a penalty, other than any reasons for the decision stated in the relevant penalty notice, with other Government authorities and regulators, both domestically and overseas.

Appeals

Right to appeal

- 31.** (1) A party who has been given a penalty notice may appeal to a court in respect of the decision to impose the penalty, its amount, or both.
- (2) An appeal referred to in paragraph (1) shall be made within thirty days after the party received the notice, or any later period the court allows.

Automatic stay on appeal

- 32.** (1) The Authority shall not, without the leave of the court, enforce the penalty which is the subject of an appeal until the outcome of the appeal.
- (2) Paragraph (1) does not limit or otherwise affect any obligation of the party under Part 2.

Appeal hearing and outcome

- 33.** (1) An appeal is by way of a rehearing *de novo*.
- (2) After hearing an appeal, the court may —
- (a) affirm, set aside or vary the decision appealed against (the “original decision”); or
 - (b) set aside the original decision and remit the matter to the Authority for the Authority to reconsider with directions the court considers fit.
- (3) The following applies if the decision of the court is to affirm the original decision or to vary it in a way that a penalty is still imposed —
- (a) the court’s decision is, other than in respect of regulations 27 and 31, deemed to have always been the original decision;
 - (b) the court, at the Authority’s request, may issue a judgment against the party for all or any part of the penalty that continues to be unpaid; and
 - (c) the request may be made during the appeal, when the court’s decision is handed down or at any later time on production of a certificate under regulation 36(3)(j).

Section III: Due diligence procedures

A Crypto-Asset User is treated as a Reportable User beginning as of the date it is identified as such pursuant to the due diligence procedures described in this Section.

A. *Due diligence procedures for Individual Crypto-Asset Users*

The following procedures apply for the purposes of determining whether the Individual Crypto-Asset User is a Reportable User.

1. When establishing the relationship with the Individual Crypto-Asset User, or with respect to Pre-existing Individual Crypto-Asset Users by twelve months after the effective date of these rules, the Reporting Crypto-Asset Service Provider must obtain a self-certification that allows the Reporting Crypto-Asset Service Provider to determine the Individual Crypto-Asset User's residence(s) for tax purposes and confirm the reasonableness of such self-certification based on the information obtained by the Reporting Crypto-Asset Service Provider, including any documentation collected pursuant to AML/KYC Procedures.
2. If at any point there is a change of circumstances with respect to an Individual Crypto-Asset User that causes the Reporting Crypto-Asset Service Provider to know, or have reason to know, that the original self-certification is incorrect or unreliable, the Reporting Crypto-Asset Service Provider cannot rely on the original self-certification and must obtain a valid self-certification, or a reasonable explanation and, where appropriate, documentation supporting the validity of the original self-certification.

B. Due diligence procedures for Entity Crypto-Asset Users

The following procedures apply for the purposes of determining whether the Entity Crypto-Asset User is a Reportable User or an Entity, other than an Excluded Person or an Active Entity, with one or more Controlling Persons who are Reportable Persons.

1. Determine whether the Entity Crypto-Asset User is a Reportable User.

- (a) When establishing the relationship with the Entity Crypto-Asset User, or with respect to Pre-existing Entity Crypto-Assets Users by twelve months after the effective date of these rules, the Reporting Crypto-Asset Service Provider must obtain a self-certification that allows the Reporting Crypto-Asset Service Provider to determine the Entity Crypto-Asset User's residence(s) for tax purposes and confirm the reasonableness of such self-certification based on the information obtained by the Reporting Crypto-Asset Service Provider, including any documentation collected pursuant to AML/KYC Procedures. If the Entity Crypto-Asset User certifies that it has no residence for tax purposes, the Reporting Crypto-Asset Service Provider may rely on the place of effective management or on the address of the principal office to determine the residence of the Entity Crypto-Asset User.
- (b) If the self-certification indicates that the Entity Crypto-Asset User is resident in a Reportable Jurisdiction, the Reporting Crypto-Asset Service Provider must treat the Entity Crypto-Asset User as a Reportable User, unless it reasonably determines based on the self-certification or on information in its possession or that is publicly available, that the Entity Crypto-Asset User is an Excluded Person.

2. Determine whether the Entity has one or more Controlling Persons who are Reportable Persons. With respect to an Entity Crypto-Asset User, other than an Excluded Person, the Reporting Crypto-Asset Service Provider must determine whether it has one or more Controlling Persons who are Reportable Persons, unless it determines that the Entity Crypto-Asset User is an Active Entity, based on a self-certification from the Entity Crypto-Asset User.

- (a) **Determining the Controlling Persons of the Entity Crypto-Asset User.** For the purposes of determining the Controlling Persons of the Entity Crypto-Asset User, a Reporting Crypto-Asset Service Provider may rely on information collected and maintained pursuant to AML/KYC Procedures, provided that such procedures are consistent with the 2012 FATF Recommendations (as updated in June 2019 pertaining to virtual asset service providers). If the Reporting Crypto-Asset Service Provider is not legally required to apply AML/KYC Procedures that are consistent

with the 2012 FATF Recommendations (as updated in June 2019 pertaining to virtual asset service providers), it must apply substantially similar procedures for the purposes of determining the Controlling Persons.

- (b) **Determining whether a Controlling Person of an Entity Crypto-Asset User is a Reportable Person.** For the purposes of determining whether a Controlling Person is a Reportable Person, a Reporting Crypto-Asset Service Provider must rely on a self-certification from the Entity Crypto-Asset User or such Controlling Person that allows the Reporting Crypto-Asset Service Provider to determine the Controlling Person's residence(s) for tax purposes and confirm the reasonableness of such self-certification based on the information obtained by the Reporting Crypto-Asset Service Provider, including any documentation collected pursuant to AML/KYC Procedures.
3. If at any point there is a change of circumstances with respect to an Entity Crypto-Asset User or its Controlling Persons that causes the Reporting Crypto-Asset Service Provider to know, or have reason to know, that the original self-certification is incorrect or unreliable, the Reporting Crypto-Asset Service Provider cannot rely on the original self-certification and must obtain a valid self-certification, or a reasonable explanation and, where appropriate, documentation supporting the validity of the original self-certification.

C. Requirements for validity of self-certifications

- 1. A self-certification provided by an Individual Crypto-Asset User or Controlling Person is valid only if it is signed or otherwise positively affirmed by the Individual Crypto-Asset User or Controlling Person, it is dated at the latest at the date of receipt and it contains the following information with respect to the Individual Crypto-Asset User or Controlling Person —
 - (a) first and last name;
 - (b) residence address;
 - (c) jurisdiction(s) of residence for tax purposes;
 - (d) with respect to each Reportable Person, the TIN with respect to each Reportable Jurisdiction; and
 - (e) date of birth;
- 2. A self-certification provided by an Entity Crypto-Asset User is valid only if it is signed or otherwise positively affirmed by the Crypto-Asset User, it is dated at the latest at the date of receipt and it contains the following information with respect to the Entity Crypto-Asset User —
 - (a) legal name;
 - (b) address;

- (c) jurisdiction(s) of residence for tax purposes;
 - (d) with respect to each Reportable Person, the TIN with respect to each Reportable Jurisdiction;
 - (e) in case of an Entity Crypto-Asset User other than an Active Entity or an Excluded Person, the information described in subparagraph C(1) with respect to each Controlling Person of the Entity Crypto-Asset User, unless such Controlling Person has provided a self-certification pursuant to subparagraph C(1), as well as the role(s) by virtue of which each Reportable Person is a Controlling Person of the Entity, if not already determined on the basis of AML/KYC Procedures; and
 - (f) if applicable, information as to the criteria it meets to be treated as an Active Entity or Excluded Person.
3. Notwithstanding subparagraphs C(1) and (2), the TIN is not required to be collected if the jurisdiction of residence of the Reportable Person does not issue a TIN to the Reportable Person, or the domestic law of the relevant Reportable Jurisdiction does not require the collection of the TIN issued by such Reportable Jurisdiction.

D. General due diligence requirements

- 1. A Reporting Crypto-Asset Service Provider that is also a Financial Institution for the purposes of the Common Reporting Standard may rely on the due diligence procedures completed pursuant to Sections IV and VI of the Common Reporting Standard for the purpose of the due diligence procedures pursuant to this Section; and a Reporting Crypto-Asset Service Provider may also rely on a self-certification already collected for other tax purposes, provided such self-certification meets the requirements of paragraph C of this Section.
- 2. A Reporting Crypto-Asset Service Provider may rely on a third party to fulfil the due diligence obligations set out in this Section, but such obligations remain the responsibility of the Reporting Crypto-Asset Service Provider.
- 3. A Reporting Crypto-Asset Service Provider is required to maintain all documentation and data for a period of not less than five years after the end of the period within which the Reporting Crypto-Asset Service Provider must report the information required to be reported pursuant to Section II.
