

Waystone Reaffirms Commitment to Hong Kong with Move to New Office in Financial District

May 19, 2026

Waystone, a leading provider of specialist services to the global asset management industry, today announced that it has relocated its Hong Kong team to a newly upgraded office in the heart of the city's financial district, reflecting its continued expansion in the region and long-term commitment to the Hong Kong market, where Waystone has been operating since 2010.

The move supports the growth of Waystone's APAC operations and strengthens its on-the-ground presence in Hong Kong, a key hub for asset managers and institutional clients. From this new base in the Man Yee Building, the team will continue delivering a full suite of services spanning governance, risk, compliance and corporate solutions.

Waystone now operates from more than 20 offices across Europe, the Americas, the Middle East and Asia. The relocation forms part of the firm's wider global growth strategy, focused on investing in local expertise and infrastructure to better support clients wherever they operate. Designed with flexibility in mind, the new office provides a collaborative environment that supports both current workflows and future growth.

[Elaine Chow](#), Country Head – Hong Kong at Waystone, commented: *"This relocation represents more than a change of address, it reflects our continued expansion and deep commitment to the Hong Kong market. It is a strategic investment in a modern working environment that promotes collaboration and innovation, and empowers our team to deliver the high-quality specialist solutions our clients need to grow throughout the APAC region."*

About Waystone
