

Voluntary Liquidations for Cayman Entities – Advance Preparation to Minimize or Avoid 2027 Fees

[Claudine Thompson](#)

August 6, 2026

This Waystone Advisory reminds investment fund stakeholders of impending deadlines to be met, if they are contemplating formally closing a fund or a redundant vehicle via voluntary liquidation or strike off.

Now is the time to act to ensure that 2027 fees are not unnecessarily incurred.

Missing these deadlines may lead to costly fees and regulatory challenges, so proactive planning and timely action are essential to simplify the liquidation process and minimize expenses.

How Much Can Be Saved with Voluntary Liquidation in the Cayman Islands?

Non-CIMA Registered Funds

In order to avoid 2027 annual Cayman Islands' Registrar of Companies fees, a Voluntary Liquidator would need to have held the fund's final general meeting by 29 January 2027 and the final return filed with the Registrar. For a limited partnership, the final dissolution notice must be filed with the Registrar by 29 January 2027.

CIMA Registered Funds

CIMA's de-registration procedures require that a fund must complete and file its final audit (or seek and be granted an audit waiver from CIMA), and be in good standing, before the deregistration documents may be filed.

De-registrations must be approved by 31 December of the current year in order to avoid the annual CIMA license fee for the following year. For a master-feeder structure this saving could be in the region of US\$7,000.

Funds that submit de-registration filings late in December may risk CIMA not approving the de-registration prior to 31 December 2026 and the fund would therefore have to pay the full 2027 annual CIMA fee. Please note there is no pro-rata option for annual fees.

What Are the Audit Requirements for a CIMA Registered Fund?

CIMA no longer automatically grant audit waivers in lieu of a final stub period audit. Upon the payment of a fee of US\$763, audit waivers may be considered in the following circumstances:

- a fund has not launched but does not wish to be de-registered
- a fund has not launched and is being liquidated or wishes to be de-registered
- a fund has launched but has been unsuccessful in raising sufficient capital for sustainability

- a fund is unable to obtain audited accounts due to events such as bankruptcy proceedings, legal or regulatory enforcement actions
- a fund has been placed in compulsory liquidation and CIMA is satisfied with the appointment of the liquidator and the scope of the liquidator's review
- a fund is being voluntarily liquidated, and a third-party liquidator has been appointed under terms that require a review of the period since the last financial year end for which an audit has been filed
- a fund is transferring to another jurisdiction within six (6) months of its last financial year end for which an audit has been filed, or is due to be filed
- a fund is dissolving by way of a merger within six (6) months of its financial year end for which an audit has been filed, or is due to be filed

Waiver Support for CIMA De-Registration

If an audit waiver is not granted, when de-registering CIMA will require submission of audited financial statements from the date of the last financial year-end (for which audited statements have been filed) to the date of final distributions to investors; or from the date of the last financial year-end (for which audited statements have been filed) to the date of the final net asset value calculation, with the subsequent events note confirming that final distributions have been made to investors.

Waystone can assist funds in preparing and submitting audit waiver requests to CIMA if applicable.

Administrative Fines for CIMA Registered Funds

CIMA registered Cayman funds should be mindful of the breach categories pursuant to the Monetary Authority (Administrative Fines) Regulations (As Revised).

The Rule on the Cancellation of a License or Certificate of Registration of Regulated Mutual Funds and Private Funds requires funds to notify the Authority when the fund intends to cease carrying on or has ceased to carry on business as a fund within 21 days from the date the fund ceases to carry on business.

Failure to do so is categorized as a minor breach under the regulations, resulting in potential initial fine of US\$6,100 with CIMA having the discretion to impose additional fines up to US\$25,000.

When Should I Start Planning for Voluntary Liquidation?

Where voluntary liquidation is non-contentious, the fund does not have to de-register with CIMA, and all investors have been substantially redeemed in accordance with the statutory process in the Cayman Islands, it is possible to complete a straightforward voluntary liquidation process in approximately 60-90 days.

Act now and this can be achieved before 31 December 2026.

What Fund Liquidation Services Does Waystone Offer?

Our liquidations team is comprised of experienced professionals who are fully supported by our in-house fund governance specialists.

Voluntary Liquidation

We act as an Independent Voluntary Liquidator and prepare all statutory documentation as part of our process and do not charge hourly fees.

CIMA De-registration

When a fund ceases to operate it should notify the Authority within 21 days from this date and start the CIMA de-registration process. A fund seeking to cancel its licence or certificate of registration with CIMA must be in good standing on the date of the cancellation of the licence or certificate of registration.

Good standing requires that a fund must have paid all prescribed fees, submitted all the required audited financial statements, and there are no outstanding queries or regulatory filings with CIMA.

Strike Off

This is an alternative to voluntary liquidation and is more cost effective. However, the strike off option is not suitable for entities which have traded or engaged in significant business transactions as creditors can reinstate an entity for up to 10 years from the date of dissolution and pursue claims against the investment manager and/or Directors.

Securities Investment Business Act (SIBA) Registered Persons De-registration

Where a SIBA Registered Person has ceased carrying on securities investment business, or no longer fulfils the definition of a Registered Person, Waystone can assist with the de-registration process.

Key Dates for Voluntary Liquidation in Cayman

Date	Standard Gazette Appointment	Extraordinary Gazette Appointment
29 October 2026	Standard Gazette submission deadline for a 30 October 2026 appointment of the Voluntary Liquidator*
